TECHNICAL SPECIFICATIONS

Smoke

ODOR REMOVER

Smoke Odor Eliminator is chemically designed to eliminate smoke odors at their source. Smoke and other strong odors get trapped deep into fabrics and other textiles. Other products attempt to cover up these odors allowing the odors to resurface. Smoke Odor Eliminator is chemically designed to penetrate the surface and attack the source of the odor to eliminate it for good.

PRODUCT SPECIFICATION:

- Simple application. No special tools required.
- Permanently removes all odors caused by: smoke, ethnic cooking odors, burn out.
- Quickly removes all odors from HVAC system and duct work.
- Ready to use: do not dilute.
- Safe on all surfaces.
